

Invitation to Participate

An invitation for Respiratory Nurse Specialist (CNS/ANP) to participate in a study as part of a Doctorate Programme in Maynooth University.

Title:

Exploring the experience of respiratory nurse specialist's (CNS/ANP) education and wellbeing on knowledge and learning in their clinical health environment

Purpose:

Respiratory nurse specialists undertake specific educational respiratory related programs and this study looks to understand how the educational remit enhances practice development, adds to knowledge-based practice, contributes to learning and education in the sector while fostering their own and others' wellness.

Participation will involve a 1-hour long interview on your experiences with the researcher which will contribute to the body of knowledge in relation to the education and wellbeing of respiratory nurse specialists.

All information will be securely stored and guided by Maynooth University research ethics processes.

Commencement Date: Summer 2020

If there is anyone who would be interested, please contact details below.
